

The Founder's Canon

Meter, Metaphor, Memory + Meaning

The founding 205, by

Brandon WordSmith

An index of the original RhymeMosaic collection.

Compiled June 2026.

Foreword

RhymeMosaic began as a private practice — a way to write toward survival rather than fight for it. These 205 poems are the founding voice: the meter, the metaphor, the memory, and the meaning that started everything. What follows is an index of the canon, grouped by category, listed in alphabetical order within each section.

Read straight through and you'll find a working map of one person's interior life. Skip around and you'll find permission to do the same with your own.
